

## Portable Dry Power Fire Extinguisher Range

### Model : NP10

- .: Manufactured as per BS EN3 Standards
- .: Extremely effective on Class A, B, C & E fires
- .: Made of cold rolled steel sheet using Argon/CO2 welding process
- .: Features an aluminium rising pipe to reduce risk of breakage and ensure long life
- .: Electrostatic powder coating after shot blasting to ensure excellent resistance to corrosion
- .: Plastic base available upon request

<b>Model Number</b>	: NP10
<b>Capacity</b>	: 10 kg
<b>Working Pressure (Bar)</b>	: 14
<b>Test Pressure (Bar)</b>	: 30
<b>Valve</b>	: Brass, Nickel-Plated
<b>Rising Pipe</b>	: Aluminium
<b>Total Weight (Kg)</b>	: 15.5
<b>Range of Discharge (m)</b>	: 6-8
<b>Duration of Discharge (sec)</b>	: 26
<b>Operating Temperature (°C)</b>	: -20 to +60
