

Portable Dry Power Fire Extinguisher Range

Model : NP6

- .: Manufactured as per BS EN3 Standards
- .: Extremely effective on Class A, B, C & E fires
- .: Made of cold rolled steel sheet using Argon/CO2 welding process
- .: Features an aluminium rising pipe to reduce risk of breakage and ensure long life
- .: Electrostatic powder coating after shot blasting to ensure excellent resistance to corrosion
- .: Plastic base available upon request

Model Number	: NP6
Capacity	: 6 kg
Working Pressure (Bar)	: 14
Test Pressure (Bar)	: 30
Valve	: Brass, Nickel-Plated
Rising Pipe	: Aluminium
Total Weight (Kg)	: 10
Range of Disch-arge (m)	: 6-8
Duration of Discharge (sec)	: 21
Operating Temperature (°C)	: -20 to +60
